

## PDBS Estimate System Modifications

**UDOT Contingency Fund:** Added a new Detail to the Engineer's Estimate called " UDOT CONTINGENCY FUND ". If a non-bid contingency amount is to be included in the estimate, a new Detail, 77 - MISC, NON-BID: UDOT CONTINGENCY FUND, is selected.

Right Click in Item section, select ADD. After "Add" item is selected, a new item, 00000277\*, Lump, UDOT Contingency Fund, will automatically be inserted. Enter a value in the 'Unit Price' Column.

**Construction Engineering:** CE costs will no longer be added via the Estimate Setup window. In lieu of specifying the Construction Engineering costs as a percentage, Detail **95 - CONSTRUCTION ENGINEERING** has been added so the actual and/or negotiated amounts can be entered. The items that can be selected are 00000910\* In-House, 00000911\* Consultant C.E., and 00000912\* Consultant C.E. Audit.
